Color		Clear

Lucas Synthetic P3 is a true high performance synthetic motor oil blended with the purest, lightest, synthetic base stocks and an exclusive additive package that guarantees minimum friction and maximum protection at the same time. This product blends safely with other automotive lubricants.

Lucas Synthetic P3 is recommended for Pro Stock bikes, Pro Stock cars, and any high revving, close tolerance engines where the absolute maximum power is required. It is not recommended for normal highway usage.

For any situation that requires a heavier oil add Lucas Heavy Duty or Pure Synthetic Oil Stabilizer to gain the desired viscosity.
